9x19 (9mm Luger)

CSV-9 is a weapon intended for target shooting and sport. It is produced in seven production variations - barrel length 120mm up to barrel length 254mm - however, its construction belongs to the group of semi-automatic firearms and it is also suitable for protection of health and property. It is constructed for 9mm Luger cartridge and it's possible to shoot at all approved shooting ranges for pistol bullets from a distance of about 10m to approximately 50/100m.

Its intended for civilian customers, which are interested in target shooting, sport or performance of various sports shooting disciplines determined for pistols and pistol ammunition. It is also suitable for practice manipulation with weapon during the case of emergency and it may serve as suitable weapon for protection of health and property.

Weapon is equipped with a 4x Picatinny rail, on main upper rail, which is used as cover of weapon, are attached mechanical sights or collimator sight. Other rails are situated by 90° around the axis of barrel on the handguard and it is used for attachment various tactical weapons accessories (eg. a tactical lights and tactical pistol grips).

Barrel length
200mm

Weapon overall length
433mm / 627mm – folded butt

Weapon height
179mm with mechanical sights

Weapon width
49mm (body 34mm)

Weapon weight
2,4kg – steel body

➤ **CSV-9 200mm barrel (version 3)**

Barrel length
200mm

Weapon overall length
433mm / 627mm – folded butt

Weapon height
190mm with mechanical sights

Weapon width
49mm (body 34mm)

Weapon weight
2,9kg – steel body

➤ **CSV-9 254mm barrel** (version 4)

Barrel length
254mm

Weapon overall length
490mm / 684mm – folded butt

Weapon height
179mm with mechanical sights

Weapon width
49mm (body 34mm)

Weapon weight
2,5kg – steel body

➤ **CSV-9 254mm barrel** (version 5)

Barrel length
254mm

Weapon overall length
489mm / 679mm – folded butt

Weapon height
190mm with mechanical sights

Weapon width
49mm (body 34mm)

Weapon weight
2,97kg – steel body

➤ **CSV-9 200mm barrel** (version 6)

Barrel length
200mm

Weapon overall length
433mm / 627mm – folded butt

Weapon height
179mm with mechanical sights

Weapon width
49mm (body 34mm)

Weapon weight
2,2kg – steel body

➤ **CSV-9 254mm barrel** (version 5-AR)
